FRAUDULENT BANKS.

Lynn Park National Bank, N. Y. (No such bank.)
2s. Very well done.

Nat. Union Bank of Linderpark, N. Y.

10s. Well done.

National Bank of the State "IN" N. Y.

Mechanics' National Bank of Janesville, N. Y.—(NO SUCH BANK.)

NEW COUNTERFEITS.

Every counterfeit that has ever been made has one or more mistakes in it. Our aim is to show what that mistake is.

Rhode Is. Nat. B'k, Providence, R. I.
2s imitation. Quite well done and very likely to deceive.

5s GREENBACKS.

The green ornamental engraving lengthwise of the bill in the counterfeit is of a paler color than in the genuine, and has a brighter look than the dark green of the original. Seen under the microscope the engraving is coarse, but to the naked eye the bills have a very good appearance.

Albany City National Bank, N. Y.

19s, imitation. The engraving is scratchy, and the general appearance poor when compared with the genuine, but likely to deceive.

Mutual National Bank, Troy, N. Y.

10s imitation. Well executed and likely to deceive. Shading of "United States" lighter than the genuine.

National Bank of Lebanon, N. H.

10, imitation. Well done.

St. Nicholas National Bank, N. Y. City.

2s, imitation. General appearance good. Shading under title of bank irregular.

Auburn City National Bank, N. Y.

10s, imitation. The paper is good and will wear well. The front of the bill is quite well done, but the back is very much blurred—the left end of the centre engraving looking as rough as a brush heap.

Marine National Bank, N. Y. City.

2, imitation. The shading under the title of the bank is bad, otherwise the bill is very good and likely to deceive.

Tremont National Bank, Boston, Mass.

2s, imit., well done, and will easily deceive the unwary.

Gore Bank, Hamilton, Canada.

4s, a very close imitation—better refuse all bills of this denomination.

20s GREENBACKS.

A dangerous counterfeit. Green ink a good color, but the paper too yellow. Principal defect in the die. No clear and distinct lines around the 20. Looks more like a collection of several spots. Female well done, but the face rather coarser than the genuine.

First Nat'l Bank, Louisville, Ky.

5s, imitation. Columbus at the left end of the note has no left hand. Engraving rather coarse and heavy.

Tioga National Bank, Owego, N. Y.

50s raised from 5. Well done.

First National Bank of Boston Mass.

5s, imitation. The engraving is fine and well done. The signatures of the President and Cashier are engraved. The Seal of the Treasury is a fac simile of the genuine. Examine the wording of the penalty on the lower corners of the back of the note. The bill is well calculated to deceive.

NEW YORK, Feb. 24. 1869.

U. S. Bonds were the most excited and fluctuating of the securities dealt in since our last report. The rapid advance in London and Frankfurt of 5.20s of '62 to the unprecedented figures of 79 and 82, carried up the whole list. That advance being chiefly due to the passing in the House of Representatives of Hooper's bill, (forbidding the increase of the bonded debt) a combination, said to extend from Washington to New York, went largely "short," and by delaying further action on that bill in Washington and making money extremely tight in New York, succeeded in "covering" advantageously. There being now a formidable bear combination reported "short" of many millions of Governments, it is a very strange coincidence that the reported rejection of Hooper's bill by the Senate Financial Committee, will help them again to cover their speculative sales very advantageously. Whereupon an evening paper wants to know, "if there is any relation between certain parties in Washington being on the same side of the market with New York "bearing" financiers and the delay to adopt measures so sound, and so well calculated to stimulate the growing confidence in our finances.

Pacific Railroad bonds are in good demand for investment; the recent legal-tender decision (see another column) making their principal legally payable in gold.

The money market continued abundantly supplied and easy since our last report, with the exception of two or three days during last week, when call loans on prime collaterals commanded 7 per cent in gold. This was owing to an artificial stringency, brought about by a powerful clique of "bears" in governments and gold, who were in that movement assisted by "bulls" in railroads stock using the "scoop" game, the easier to entrap a heavy short interest. Of late 6 per cent in currency on prime collaterals, and 7 per cent on mixed is the rule; transactions at 5 per cent being less frequent, though some were even made at 4. Prime commercial paper is readily discounted at 7@9. Exchange has lately been quite unsettled and quotations unsteady, sterling being the standard for other European exchanges. We quote 60 days at 108½@109½, short sight at 109½@109¾. The lower figures for exchange, as also for gold, which, though having been temporarily stayed in its downward course by "bull operators," is selling to-day at 132½, are chiefly due to the late heavy shipments of U. S. Bonds to Europe, and to higher quotations of cotton abroad.

The market for Railroad Stocks has lately become rather deserted by "outsiders." Having found out at last that, no matter, whether they "go long" or "sell short," they are sure to be "fleeced" by those "inside cliques," who unscrupulous control this market, they prefer staking their surplus funds in safer securities or real estate, where they will have some chance of winning. Still, though brokers complain of business decreasing with them, a third Board of Brokers has lately been organized. This is probably due to the ousting of Erie and some other stocks

from the Regular and Open Boards, the respective companies having failed to put their transfer books into the possession and control of some Trust Company or other institution, satisfactory to the Stock Exchange. On the miscellaneous list Pacific Mail remains conspicuous through another break of 15 per cent, making the decline over 25 per cent within the last thirty days. Some other highly inflated bubbles on the list of railroad and miscellaneous lists have also lately appeared shaky, and should take no one by surprise when ultimately bursting.

For to-day's Stock quotations see page 19.

UNITED STATES SUPREME COURT.—COIN CONTRACTS VALID.—Frederick Bronson, executor, &c., plaintiff in error, agt. Peter Rodes, in error to the Court of Appeals of the State of New York. Chief Justice Chase delivered the opinion of the court to the effect that contracts for the payment of coin should be enforced by the Court according to the intent of the parties. In this case a mortgage was made to secure payment of fifteen hundred dollars in the State of New York in 1851, and it was provided that the money should be paid in coin, the legal money of the United States. In January, 1865, tender was made in Treasury notes, which was refused, and this action was brought to enforce such payment, and secure a ratification of the mortgage in pursuance thereof. The Court of New York held that the tender was a discharge of the mortgage, and directed it to be cancelled. The Supreme Court now holds that there are two descriptions of lawful money in circulation, both sanctioned by law, and both therefore a legal tender; that in view of this fact contracts for payment must be enforced, and that where coin is provided to be paid judgment should be for such description of money; but where no description is named, judgment should be entered generally without specification. The judgment of the New York Court of Appeals is reversed with costs, and the same remanded for further proceedings.

Suspension of the Fourth National Bank of Philadelphia.

PHILADELPHIA, Feb. 23.—The doors of the Fourth National Bank were not opened this morning owing to the defalcation of Cashier MacMullen. The suspension caused a large crowd to collect in the vicinity of the bank. MacMullen is here, but refuses or is unwilling to give any information. The police have him in their possession. The bank has been in bad odor for some time and the event has not caused much surprise. The capital of the bank is \$225,000, the deposits \$500,000, and the circulation \$130,000 at the last report.

ARREST OF A DEALER IN COUNTERFEIT MONEY AT BUFFALO, N. Y.—William A. Carncross of Red Creek, Wayne County, N. Y., was arrested at the depot on the 23d inst., by United States Marshal Lowles, while purchasing a ticket for the West, charged with having and selling counterfeit \$10 notes on the Albany City National Bank. Carncross had previously attempted to pass a bundle of counterfeit notes on the same bank amounting to \$500, but was prevented by detective Lovell. The prisoner was formerly schoolmaster, local preacher, &c., at Clyde, and is indicted for burglary and larceny of \$1,900 in bonds in Clyde.

THE GIFT JEWELRY BUSINESS.—The green-horns seem innumerable, and their confidence in the gift jewelry business, it seems, cannot be shaken. The latest speculation of this kind now most in favor, is that of the "New York Jewelers' Co-operative Union," which has been flooding the rural districts with circulars for several weeks past. One of their lucky ticket-holders was informed by letter that he had drawn a gold watch valued at \$250, and upon his forwarding five per cent of the amount, the prize would be forwarded to his address by express. The prospective owner of the valuable time piece wrote to a friend in the city, desiring him to call on the Jewelers' Union, pay the percentage and forward the prize. The city gentleman did call, in company with a well known jeweler, and the prize was thoroughly inspected and found to be a genuine Pinchbeck, worth about \$4.50. The New York Jewelers' Co-operative Union are represented by the firm of Hallett, Moore & Co., Bankers and Financial Managers, No. 575 Broadway.

W. R. Brown & Co's Bank, Toronto, Canada, closed its doors on the morning of the 23d, inst., in consequence of heavy losses in this city.

TO OUR SUBSCRIBERS.

We are placing the imitations of National Bank Notes under the respective banks in the body of the Reporter, as the large number of counterfeits recently put in circulation take up more space than we have room for on first and second pages. Many of these counterfeits are so well executed, (especially those of the denomination of \$10 and \$100,) that it is almost impossible to detect them. We would say to our subscribers, examine carefully all bills on the National Banks, as the adoption of uniform plates for this currency adds extra facilities to counterfeiters, as a good counterfeit can easily be altered to any of these banks.

Description of Genuine Bills.

1000s—right end, Capitol of Washington—left end, Gen. Scott entering the City of Mexico. Other side, Washington resigning his commission.

GREENBACKS.

1s, upper left end, a large oval portrait of Chase; 1 in green below—right end, 1 in fancy die; signatures of Treasurer of United States and Register of Treasury on a green tint below; a strip of black lathe-work between signatures.

2s, lower left centre, a large oval portrait of Alexander Hamilton—left end, 2 on a die; 11 below on a green die; right end, 2 on a die; signatures below on a green tint separated by two strips of black lathe-work.

5s, in centre, FIVE DOLLARS across a green 5 and die work—right end, an oval male portrait; left end, female statue erect, with sword and shield, on a black ground work—fancy green back.

10s, upper centre, eagle on a shield; 10 in green die each side; a strip of green lathe work below—right end, female erect by pedestal holding tablet, etc.—left end a large oval portrait of President Lincoln—fancy green back.

20s, in centre, a female erect, with sword and shield, between figure 20 and two green dies; figure 20 each side—TWENTY DOLLARS across each end in green die work—fancy green back.

50s left centre, oval portrait of Hamilton; Treasury die in pink on right of die; 50 on die on each end of note.

100s, upper left centre, large spread eagle sitting on a rock; Treasurer's die in pink and 100 in green die on right of vig.—right upper corner 100 on a black die—lower left corner 100 on a black die.

500s, in centre, portrait of Albert Gallatin encircled in a green die—right end, 500; FIVE HUNDRED DOLLARS below—left end same as right.

1000s, in centre, portrait of Robert Morris in green circle—right end M with 1000 across it; ONE THOUSAND DOLLARS on a green die below—left end, same as right.

COUNTERFEIT GREENBACKS.

1s, (1st kind) can be readily detected by the inferior style of the engraving, particularly the head of Chase. The mouth is crooked, the eyes imperfect, and the hair on the top of the head resembles side hair brushed over to cover baldness. The back is of a lighter green than the genuine.

1s, (2d kind) the general appearance is very coarse and may readily be detected; green ink is very pale. On the imitation there is a BLACK STRAIGHT LINE under the red figures on the upper part of the bill; none in gen.

2s, imit., well executed. Coat of Hamilton badly done. The shirt bosom of Hamilton is very dark and uneven, but in the genuine white and plain. The shading of the words "UNITED STATES" light and broken.

5s, 10s, genuine notes without the red seal, and others reported without the usual number being printed upon them.

5s, imit., words "United States" heavily shaded. Gen. are clear, lightly shaded and plain. The words "Patented 30th June, 1867," under the words N. York are not on the counterfeit bill. All the counterfeits are letter A, and are $\frac{1}{4}$ inch shorter than the genuine.

On the new series of letter "A," around the figure of Liberty on left end is a plain black line. On the counterfeits, this line along the bottom of the figure running towards the right of the note forms two distinct lines, on gen. only one. But this

may be a counterfeiter's dodge to have it described and alter it afterwards.

5s, imit., this bill is well calculated to deceive, and the only difference we can detect is in the die on the right end enclosing the figure 5. The genuine has three black circles enclosing the 5. The imit. has only two, and on lower right end figure 8, and on left end series 90.

10s. Paper very light, and the green ink of a lighter shade. Dated March 10th, 1862.

10s alt'd from 1s, portrait of Chase on left.

10s imit. There are 18 small Xs on upper right margin, and only 15 on the genuine. The words "Printed by the National Bk Note Co." on lower left margin extends over 9 of the Xs on imit. and 8 on the genuine.

10s, imit., has 14 small Xs on upper right margin—16 on left. The gen. has 15 Xs each side of engravers name. Portrait of Pres. Lincoln is very coarse and pale looking; imit. are dated Washington, March 10, 1862, letter C.

20s. very close imit. of gen., the engraving is good, in the center figure the foot of the female can scarcely be seen. On the left end bottom are the words "Payable at the Treasury of the U. S. at New York." The A's in payable are too small and uneven. The letter "M" in the word "The" is not crossed in the centre. The imprint is defective; the green ink is of too light a color.

50s, alt'd from 2s, portrait of Hamilton on left centre. The vignettes of the two-dollar and fifty-dollar Treasury note are the same. Ingenious persons are counterfeiting the body of the fifties and using the vignettes of the twos, producing a note that deceives experts.

50s, imit. observe the figures 50 on back of the bill around the margin, the 5 in the imit. runs into the 0, gen. does not. The word "FIFTY" around the above 50 can scarcely be read. Words "LEGAL TENDER" is very much blurred. Letter C dated March 8, '63. On the left lower corner the No. 550 instead of 50 enclosed in one circle.

50s, imit., observe the head of Hamilton, upon the face of the note, which represents the line of the waistcoat crossing the white collar at the neck. The acute angle formed by the shape of the collar, so far as it is shown, is perfect in the counterfeit note; but in the genuine the lines of the flesh were drawn by the engraver across the point of the collar at its junction with the waistcoat, for the purpose of relieving the angle of the sharpness it would otherwise have exhibited. This difference is not readily observed unless the notes are perfectly clean. The other discrepancy is in the shape of the ornaments in the border on each end of the face of the bills, and in the whole border on the back. The figures "50" are engraved on a green ground, of which the rim, in the genuine bill, is in octagonal form, rather well defined, though the angles are not sharp. The eight sides of what at first view appeared to be circles, may be easily discerned. In the counterfeit bill the border ornaments, containing the "50" are octagonal in only a very slight degree, and seem to be perfect circles. The general appearance of the counterfeit gives no indication of its true character.

100s, imit. the red figures are much larger than the figures of any Treasury Notes, the wings of the eagle are very coarse—the double rule running from it is heavier, and the curve twice as large, while there is a diagonal shading at the joint of the imprint with the rule, which does not appear on the genuine. On the right end of the back of the bill, the 100 in the circles are inverted, thus, 001. In the genuine this inversion is on the left end. The imprint, American Bank Note Co., is very uneven, and too large.

100s, imit., (2d kind) of the notes issued under the act of February, 1862, well executed. The spurious note is smaller, and the coloring on the back is paler than on the genuine bill. The words "one hundred dollars" on the right hand side of the counterfeit are smaller than on the genuine note.

100s, imit., (3d kind) the note is smaller than the genuine, the spread eagle is very coarse, and the shading of UNITED STATES is badly done. The bill is calculated to deceive.

COUNTERFEIT COUPONS.

The following are the words on the coupons: "Acts of July 17 and August 5, 1861. The United States of America will pay to bearer fifteen dollars for six months' interest due 1st January, 1867, upon bond No. 785, for \$500. L. E. Chittenden, Register United States Treasury."

FIVE CENT COIN COUNTERFEITS

Are in circulation. They may be distinguished from the genuine by the softness of the metal

COUNTERFEIT FRACTIONAL CURRENCY.

Old Issue.

50s, imit., the portraits of Washington differs one from another; in the genuine they are all alike; the green color looks light and pale.

25s, imit., well executed. Look out.

2d Issue.

10s, imitation. All gen. on the top has the word "Depositories," the imitation reads "Depositories."

50s, imit., have a pale slate color. The small barrels on lower right corner are very indistinct. The gen. have six barrels perfectly clear and plain. Three on lower row, two on next, and one on top. The counterfeit barrels are black, and gen. are white.

50s raised from 5s.

3d Issue.

50c. imit.; two kinds of the new long 50 cent currency. The imitation of one kind has DESIGNATED on upper right corner instead of DESIGNATED. The second kind has designated correctly spelt, but on the little American Shield, under the Eagle, there is a black line drawn across the upright bars of the Shield. Not so on the genuine.

25s, imit., are very pale and coarse. The letter C in cents on left end is smaller than the other letters, and too far off.

New Issue.

25, imitation. Above the words "Treasury Department," on the bottom of the bill in the genuine there is a fine notched line—the counterfeits have a straight line.

Notice the shading of the "25" on the back of the note. The genuine is dark, while the counterfeit is very pale, and very little darker than the other green. The word "of" on the face of the genuine appears thus—"of"—on the counterfeit "of."

25s, imit., well executed, but may be detected by the absence of a period (.) after the word Treasurer under Spinner's name; the work is better than any we have previously seen and liable to deceive unless carefully examined.

25s, well executed; head of Chittenden; where it reads "Furnished only by the Assistant Treasurers" the Assistant is spelt "Assistatn." In the genuine the shading of the letter "E" in "Five" is unbroken, while the counterfeit has a little notch in it.

50s, well executed. The engraving on the face of the note is excellent. The adverse is slightly blurred. The notes are an eighth of an inch narrower than the genuine.

50s, the "y" in "Colby's" name crosses a line of the coat in the genuine, but not in the counterfeit.

50s, the line of stars on counterfeit between the figures "50" at the top and bottom of the back of the note have white centres, while the entire stars on genuine are in green. The reading in black on the genuine note clear and distinct, while on the counterfeit the bronze is printed on the black, the words "FIFTY CENTS" being almost obliterated.

50s, well done. The last "e" in the signature of F. E. Spinner is omitted in some, and the (.) after print. on one end, and the d. after March 30.

50s. New and dangerous counterfeits of the last issue of the fifty cent fractional currency notes, which bear upon their face the head of Treasurer Spinner, have been detected by the Treasury Department. It can be detected by the absence of a period (.) after the word print on the right end, and also under the letter "d" in "March 3d," on the left end. The paper is thicker than that of the genuine notes, and the general appearance is calculated to deceive unless closely inspected.

Counterfeit Compound Interest Notes.

50s, imit., Compound Interest Notes, have a scratchy appearance, issue of July 15th, 1864. In the imitation the words "three years after date" on the top of the bill nearly touch the words "Treasury Department," while in the genuine there is a space of $\frac{3}{8}$ of an inch between.

2d. In the imit. the last button of Hamilton's coat is $\frac{1}{2}$ of an inch from the lower margin of the small 50s, while in the gen. the button touches the margin.

100s, Counterfeit 6 per cent. Compound Interest Notes. The engraving as well as the paper and the ink stand the comparison to the genuine. The "U" in "United States" touches the die of the "100" on the left upper corner; on the genuine there is a space of $\frac{3}{8}$ of an inch between.
